When NYC "reclassifies" 3,000 dead people as COVID19, along with numerous examples of hospitals misclassifying deaths, the whole death toll became a joke.

Oil just dropped to (negative $38 a barrel). It's never been below zero until now. Could lead to the collapse of the energy industry which employs 10 million people. If you think this is about opening Fuddruckers, you're as ignorant as the pedophile you're retweeting.

Sadly we gave America's governors on both sides of the political aisle a little taste of real POWER and now they don't want to relinquish it..

This is what I was trying to warn everyone about, and so were a few others.. But no one listened..

It's time that the Department of Justice take a STRONG and DEEP LOOK into what American Congressional and Senate members are taking donations from China.

They must be prosecuted and removed from office. Their oath isn't for Americans, they back China!

Getting VERY good reviews of the job the Federal Government is doing on CoronaVirus. Ventilators, building hospitals, beds and yes, Testing, have been handled incredibly well. Testing is getting exponentially better every day. Love seeing our Country safely opening up.

Sadly we gave America's governors on both sides of the political aisle a little taste of real POWER and now they don't want to relinquish it..

This is what I was trying to warn everyone about, and so were a few others.. But no one listened..

They aren't letting go easily..

Governors are supposed to have that power. States are supposed to be Sovereign. So, they shouldn't relinquish power to the Federal Gov. They Should be responsible w/ that power. If they're overreaching and tyrannical the people should remove them. We Returning to the Republic!

NEED BOOTS ON GROUND #Columbus #Ohio Zipcode 43231

Who will take this veteran some groceries until we can get to him? He is in line like everyone else but he needs food now. We will secure him but in mean time the man needs to eat! I am pissed! This vet deserves better than this

Code of Vets ™ @codeofvets
When I say we are operating in emergency conditions this is what mean. This Columbus OH vet is under an eviction notice with no job, no food, no paycheck, no stimulus check, no public assistance. Systems are overloaded. I have never lived to see

Comes with the territory. They're following you for a few tweets they liked but they can't handle it if you don't say what they like all the time. And then, they want to argue their case like it's their soap box. I never agree 100% with anyone I follow. That would be weird.

Teespring takes 2-3 weeks because they print one off's, which keeps us from having to house inventory which we unfortunately can't afford to do if that makes sense. So they print regardless if 1 or 10 sell.

Joe Biden should be under investigation, but not for a 1993 sexual complaint, but rather for selling the US to China and using his son and power to do it!

What Russians?

Rod Rosenstein @RodRosenstein
The Russians who meddled in the 2016 presidential election were on the Russian side. They will be on the Russian side in 2020. They are always on the Russian side.

It's more like ukrainians Matt!!there is more evidence that Ukraine interfered in our election then there is evidence of Russia even being a part of meddling the reason why they're not pushing the Ukraine narrative is cuz they are all tied into it. They all have sons on boards

Because these are the people that are in control, the question you should be asking and searching for is who put them in control especially to make the statement about the entire world needs to be vaccinated in order to go back to normal.

Good point. If vaccinations are a requirement for work, guess I (and many others) better start looking for other sources of income!

The thing is if this vaccine works will work so well, then everyone in the world shouldn't need to be vaccinated, it would pretty much be herd immunity. People that are vaccinated shouldn't be scared of those who are not unless they don't really believe vaccination works.

Only 770,000 Americans across the entire nation make the federal minimum wage...

I honestly didn't realize that the number was that small.. Raising the minimum wage would actually only help the poorest folks working...

Thoughts on this?

Statistics also show that these people spend the majority of their income back into the local communities that they live, thus pushing and helping boost local economies. So raising their wages actually makes sense to a degree

The Michigan Governor wasn't even letting people travel to each others homes until today... But she again extended the Stay at Home orders to May 15th, acting like she did the state of Michigan a favor..

What a tyrannical joke this all is..

First off, we want to know who alerted them to the shooting, and how did they know to be there?

Second, if they fail to respond, we will file subpoena's in the frivolous lawsuits filed against our team in order to get their phone records

The clock is ticking #SethRich

Very important, as we start to open up, that MAGA takes the lead in common sense. Maintain the distancing, hand-washing, and stay home when sick. The MSM/DEMS would love for a 2nd wave to not only shutter us all, but place the blame on us and Trump. Disaster for November.

I'll keep ya updated so far, so good. So far the only accomplishment is that people seem more divided than ever Most of what our governor re-opened were the ONLY things that were closed anyway. People have crowded Home Depot, Lowes and Wal mart since it all began

It is a wonderful feeling to know that our States are loaded up with Ventilators, many brand new and high quality just off of our production lines, and that we are now in a position to help other countries that so desperately need them. Every person needing a Ventilator got one!

The Do Nothing Democrats are spending much of their money on Fake Ads. I never said that the CoronaVirus is a "Hoax", I said that the Democrats, and the way they lied about it, are a Hoax. Also, it did start with "one person from China", and then grew, & will be a "Miracle" end!

Speaking of "Fake Ads," Trump conveniently forgets that he falsely accused the Central Park 5 of rape and paid the New York Times to publicly call for their brutal executions. Even after they were exonerated with DNA evidence, Trump continued to attack and defame them

Trump cannot revise history to his own liking. For months, Trump downplayed the coronavirus pandemic and kept saying "it's just the flu, bro." He wanted to keep the economy going because the Dow Jones and his re-election mattered more to him than the lives of the American people

Last month all you heard from the Radical Left, Do Nothing Democrats was, "Ventilators, Ventilators, Ventilators." They screamed it loud & clear, & thought they had us cold, even though it was the State's task. But everyone got their V's, with many to spare. Now they scream...

Donald J. Trump @realDonaldTrump

... "Testing, Testing, Testing," again playing a very dangerous political game. States, not the Federal Government, should be doing the Testing - But we will work with the Governors and get it done. This is easy compared to the fast production of thousands of complex Ventilators!

We need testing when we re-open the country to make sure that if another outbreak occurs we can isolate the hot spots rather than be forced to shut down the whole country again, which would be disastrous. More tests and preparedness now will save a lot more money and lives later.

Eugene Gu, MD @eugenegu · 20. апр

The only way to get the tests we need to enough people is to have the FDA

I'm noticing a dangerous culture of cowardice & inaction justified by an online cult that lulls people into complacency by promising some magical entity will save the day at the last possible minute. This an extremely dangerous dynamic. Entering the 4th quarter behind 50-0.

Agree. Also I voted for Trump, I will again. I mean what choice do I have? BUT, I'm not a 100%Trumper and will not make excuses for every asinine move he makes. I like him, he's amazing at any age, as far as energy, he's quick, stable genius and all that, but there are failures.

While I do understand where you are coming from I have a though for you. Let's take our current situation and let's say this one game is getting blown out at 0-50. You can't just look at this one game. There is a full fledged tournament going on. Every team is playing at once

It's time that the Department of Justice take a STRONG and DEEP LOOK into what American Congressional and Senate members are taking donations from China.

They must be prosecuted and removed from office. Their oath isn't for Americans, they back China!

There are too many small businesses that will never survive this..

Things you're hearing from the media and politicians simply aren't true. They can't afford to remain open just doing "take out"..

This is absurd, America must Open or the Recovery will take YEARS.

I'm very aware of the FISA abuses. I'm also aware the arrests should have started 3 years ago & GITMO should be well worn by now, having processed thousands of our biggest & worst traitors & subversives. But none of it's happened yet. None. I do pray it begins soon. So many

You make no sense. Arrests cannot happen simply because we think they are guilty. Isn't that what they did to Flynn and tried to do to Trump? So you want to use the Leftist rules of 'guilty until proven innocent?' How will that help get our country back to the real Rule of Law?

How many rounds for each gun do you think is ideal to have? Just starting an opinion based conversation.

Add to the conversation, my best draw from level 3 holster on the buzzer, standing at 3 yrd hitting A ring on an IPSC target is .44 seconds. My best 1.5 VTac drill is 2.5 seconds using a standard Rock River. That was in front of Daryl Holland (Retired Delta). What about you?

It depends on the type of gun, what you use it for, how much you shoot it, and how many guns you have in the same caliber

A hunting rifle used once a year vs a gun you EDC will obviously req different

Anyone telling you to accept the tyrannical moves of our government right now is not to be trusted.

This is NOT okay..

It's not okay to rule Americans, this isn't what our grandfathers and founding fathers fought for.

The time to rise again for our Republic is coming!

Secretary of Health Alex Azar more than tripled the price of insulin when he was the VP of Eli Lilly. During the coronavirus pandemic, he has given Big Pharma unprecedented opportunities to make record amounts of money at the expense of American taxpayers and their health.

Trump is already not happy with how Alex Azar handled the vaping associated lung injuries harming young people by trying to ban all vaping rather than focusing on the black market THC vapes. Ignoring vapping as a harm reduction tool for tobacco and cigarette smoking was stupid.

I support you 100%, but not on this sir. Governor Kemp is 100% RIGHT to Open Up. It's time to Open America. I don't think you understand the frustration of those Americans that are in the Blue Collar, Flyover States, not East and West Coast.

The Sleeping Bear in America is angry

What Nancy Pelosi is neglecting to tell you is that most of these people were American citizens stranded abroad! Would be nice if CNN mentioned those minor details but we know that's not happening

The people that know me and know the history of our Country say that I am the hardest working President in history. I don't know about that, but I am a hard worker and have probably gotten more done in the first 3 1/2 years than any President in history. The Fake News hates it.

Tokyo, the World's largest and densest city, has had 93.

Tokyo was never locked down.

Both have had the virus for the same amount of time.

Why is NYC's death rate 250 times higher than Tokyo's?

Something fishy here.

They will wait for 1) the Convention & they will make it a brokered convention. 2) they will allow this to run its course - if Biden wins they will have him remove himself from Office for medical reasons & VP steps in 3) Sanders sues & becomes their candidate he has his delegates

We're not even in a lockdown. We're in a state of "Businesses that haven't spent enough on lobbying must close so that Megacorporations may thrive" to some degree

Walmart is open we're not locked down. It's a halfassed attempt cause our economy won't survive a lockdown, or this.

Businesses have a RIGHT to operate and people have a RIGHT to work, our inalienable right to "pursue happiness"

If any state or local govt curtails that right, their basis in Public Health needs to be rock solid

Well, the public health case for lockdowns is kaput.

Work SAFE

Exactly. We follow the Constitution, not a mere mortal. His current form is not the embodiment of that.

This is an unprecedented giant misstep under President Trump and he needs to know this is unacceptable. We cannot mindlessly cheerlead him. Our freedom is at stake!

Hey Captain Obvious, we're long past that. Governors were elected with the understanding they'd follow the law. They're not. Nor is there anyone to police them except the DOJ.

Article should have read: Trump as businessman had a passive, non-controlling/managing interest in an office building which had financing from Bank of China for less than 22 days (in 2012). Biden, meanwhile as VP flew his son on AF2 to China to secure 1.5Bil for his fund in 2013

People would be ticked if they knew how Feline Leukemia came about (not coronavirus related).

This dumbass in the media just asked why is the Health Secretary still in his position saying that Americans can't let a virus rule their lives after 55,000 people have died from it.

Someone should ask this dumbass about the 54,000 Americans that die EVERY DAMN DAY!

2018-2019 flu season 62,000 died and there is a vaccine
88,000 die from alcoholism
50,000 suicides
47,000 drug overdoses

Why should the people and taxpayers of America be bailing out poorly run states (like Illinois, as example) and cities, in all cases Democrat run and managed, when most of the other states are not looking for bailout help? I am open to discussing anything, but just asking?

We have lost thousands of RNS, RNs have been furloughed during the coronavirus pandemic due to low patient census at their hospitals & many have not worked at all due to all elective surgeries being canceled, so they are looking to find jobs in other professions

Once this coronavirus pandemic is over we will face a nursing shortage due to RNs leaving the profession because they were financially destroyed because of the coronavirus

We can all practice personal safety and good hygiene AND open the economy! It is ridiculous to assume all of a sudden people can not assess their personal risk. Lockdown nursing homes, let rest run the economy for our kids and grandkids!

They don't own all the meats. Look at local farms. Don't mass hoard meats. We will all be fine. And if needed. There is enough wild life and plant matter to get food from. This is all to promote paranoia. Now people will mass hoard meat and Dems will blame Trump.

Yeah, good thing he apologized for the tests figure. We're 43rd for that.

This dumbass in the media just asked why is the Health Secretary still in his position saying that Americans can't let a virus rule their lives after 55,000 people have died from it.

Someone should ask this dumbass about the 54,000 Americans that die EVERY DAMN DAY!

If we Think Logically
We didn't do this over the flu. aids, swine flu, h1n1, zika. etc. the deaths of opioid overdoses a day is much worse in many ways.
The MSM pushes their ideology.
We are starting to WAKE UP to it all Hence THE GREAT AWAKENING

Governor Greg Abbott is opening the state of Texas too quickly and if there is a second wave of coronavirus infections it would be disastrous for the whole country.

Southern states like Texas and Georgia have higher rates of obesity, diabetes, and other pre-existing condtions that make people vulnerable to the coronavirus. It is beyond tragic that the very states that should be extra careful about its residents are the first ones to reopen.

You realize you made this moronic remark right..

You're saying it's okay for Goodwill to be open while selling USED ITEMS THAT HAVE BEEN DONATED... But it's not okay to eat at a restaurant with 50% occupancy..

You do realize how ignorant this remark is, right?

Why should the people and taxpayers of America be bailing out poorly run states (like Illinois, as example) and cities, in all cases Democrat run and managed, when most of the other states are not looking for bailout help? I am open to discussing anything, but just asking?

So why is Goodwill still open selling used items with the and making record profits for their CEOs in each state, while selling used unsanitary goods.

But I can't go eat at my local restaurant. Got it.

You realize you made this moronic remark right..

You're saying it's okay for Goodwill to be open while selling USED ITEMS THAT HAVE BEEN DONATED... But it's not okay to eat at a restaurant with 50% occupancy..

You do realize how ignorant this remark is, right?

The cure can't be worse than the illness? What happened to 15 days to slow the spread. That was weeks ago. Now no one has a job, businesses are closing, food supply in danger, hospitals laying off. @realDonaldTrump needs to get America open. Food lines are longer than testing lines

No they didn't. Instead we have medical personnel furloughed and the nurses that are left working have the time, energy and spirit to do videos for @tiktok_us. If they were dealing with dying people, I don't think they'd be dancing in the hallways.

I actually think that those who are for the "Great Awakening" (e.g. Trump supporters) are a far higher number, it's just that the losing side owns the media and screams a lot louder, and continually uses lies and deception to make it look like they are winning. Nope!

I remember when Justin Amash thought @marcorubio was embracing socialism for daring to suggest that American manufacturing was something we should be encouraging, instead of giving it ALL to China.

But that's just because China owns Justin.

33% occupancy means that the owners get no paycheck. The concept is called "fixed overhead". Fixed overhead does not reduce to 33%. It remains at 100%. Restaurants cannot remain at that level and be viable.

Just told that Fake News @CNN is falsely reporting that I was recently shouting at my campaign manager over made up nonsense. Actually, he's doing a great job. I never shouted at him (been with me for years, including the 2016 win), & have no intention to do so. Just FAKE NEWS.

I don't really see the significance of this. If I was law enforcement with evidence/suspicion someone had committed a crime then what else would you expect from an interview? Is it not to elicit truth/admission or lies so that they may be prosecuted?

He lied. What's ur point?

Lindsey Graham talks a big game but does nothing substantive. Still waiting for the most basic of witnesses to be called to testify on any of this. Only acceptable excuse is if AG Barr has asked him privately to hold off as he wraps up his investigation.

33% occupancy means that the owners get no paycheck. The concept is called "fixed overhead". Fixed overhead does not reduce to 33%. It remains at 100%. Restaurants cannot remain at that level and be viable.

It's a basic rule of human psychology that those who bully others so viciously do it because they have deep insecurities, fear, and self loathing. They tear others down because they are torn up inside. Trump is so angry about the internal polls showing that he's losing to Biden.

We shouldn't follow Trump's example. Using social media to bully and cancel others is the most immature and despicable behavior that turns this place into a cesspool. We reward bullies and destroy victims like this is some type of gladiator blood sport. It's cruel and disgusting.

Michigan law allows the governor to declare a state emergency up to 28 days. That expired today (4/30). It can not extend beyond 28 days without legislative approval. The Republican controlled Senate just adjourned without granting the extension.

Not exactly - she extended the Emergency Declaration to the 28th. The Stay-At-Home order goes to May 15th.

Now, by extending the ED she has cleared the way to extend past the 15th, but that has not happened yet.

She is being challenged in court on her tyranny.

Millions couldn't afford it before COVID. Millions more are now destitute not because they are sick, but because the government is afraid they might get sick.

Government imposed poverty belongs in communist countries, not the USA.

I wonder how fast we could get America open if we stopped all checks to Congressional & Senate members and their staffs until America is open for business...

Matt, Congress don't have that Authority same with the President. They can suggest but they can't enforce. It's up to the Governors of the States to reopen the Country by reopening their States. So in retrospect then we need to quit paying the Governors and State Senates

So these idiots think you can wear a mask while getting your hair cut.

That sounds about as unsanitary as it gets, guaranteeing you will breath in whatever falls into your mask, plus how do you cut hair with a strap around your ears and the head

We're ran by morons..

The lovely governor of Arkansas .@AsaHutchinson is ALLOWING Arkansans to go to restaurants on May 11th, but with 33% occupancy and you must where a mask until your food is brought to you..

33% occupancy means that the owners get no paycheck. The concept is called "fixed overhead". Fixed overhead does not reduce to 33%. It remains at 100%. Restaurants cannot remain at that level and be viable.

Did you see the tweet that is supposed to be from the CDC acknowledging that the actual corona virus deaths are just over 11 000? The revised it and attributed the rest of the 55.000 to their proper categories

This can only be good news for the coal industry, and will hopefully roll back current restrictions so that we can reopen power plants. We need FUEL in order to have assured power, and cannot afford renewables at this critical time. Coal is the only fuel that is "transportable."

Michigan law allows the governor to declare a state emergency up to 28 days. That expired today (4/30). It can not extend beyond 28 days without legislative approval. The Republican controlled Senate just adjourned without granting the extension.

Don't wait to find out. Fast food lacks cogent nutrition, is oversaturated with fats and chems, and is overpriced anyway.

Instead shop your local grocery and take steps to alter you routine (if necessary) to prepare you own fresh meals.

Otherwise, why continue taking the risk?
